# WHO IS PHARMACEUTICAL PHYSICIAN?

A Pharmaceutical Physician is a medical doctor specializing in the clinical and regulatory aspects of drug development and the safe, effective, and ethical use of medicines. Their roles span various stages of the drug lifecycle, from discovery through post-marketing surveillance. Here are some key responsibilities and contributions of a Pharmaceutical Physician:

## Role in Healthcare

- **Clinical Trials:** They design, oversee, and analyze clinical trials to evaluate the safety and efficacy of new medications.
- **Regulatory Affairs:** They work with regulatory agencies (e.g., FDA, EMA) to ensure compliance with laws and regulations governing drug development and approval.
- **Pharmacovigilance:** They monitor and evaluate the safety of drugs once they are on the market, ensuring any adverse effects are identified and managed.
- **Medical Affairs:** They provide medical and scientific support to marketing and sales teams, helping to ensure accurate and ethical communication about medications.
- **Education and Training:** They educate healthcare professionals about new drugs and their appropriate use.
- **Patient Safety:** They develop and implement risk management plans to minimize potential risks associated with drug use.

## Role in Drug Development Process

- **Drug Discovery:** They collaborate with researchers to identify potential new drugs and conduct preclinical studies.
- **Clinical Development:** They lead Phase I-IV clinical trials, ensuring that these studies are scientifically valid and ethically conducted.
- **Regulatory Submissions:** They prepare and submit documentation required for drug approval, including clinical trial data and risk-benefit analyses.
- **Labeling and Marketing:** They ensure that drug labeling provides clear and accurate information about the drug's uses, benefits, and risks.
- **Post-Marketing Surveillance:** They continue to monitor the drug's performance in the general population and report any adverse events to regulatory bodies.
- **Pharmacoeconomics:** They analyze the economic impact of drugs, including cost-effectiveness and budget impact, to support healthcare decision-making.

## Impact on Healthcare

- Pharmaceutical Physicians play a crucial role in bridging the gap between laboratory research and clinical practice, ensuring that new therapies are both safe and effective.
- Their work helps to bring innovative treatments to market, improve patient outcomes, and advance medical science.

## Skills and Qualifications

- **Medical Degree (MBBS/MD or equivalent):** Required for understanding the clinical aspects of drug development.
- **Clinical Experience:** Beneficial for designing and interpreting clinical trials.
- **Regulatory Knowledge:** Understanding of the regulatory landscape and requirements.
- **Communication Skills:** Essential for collaborating with diverse teams and educating stakeholders.
- **Analytical Skills:** Important for data analysis and problem-solving in clinical research.
- Pharmaceutical Physicians are integral to the development of new medications, ensuring that new therapies are brought to market efficiently and safely, ultimately enhancing patient care and public health.

# COURSE OVERVIEW

The Online Certificate Course in Pharmaceutical Physician is designed to equip MD Pharmacology doctors and postgraduate students pursuing MD in Pharmacology with advanced knowledge and skills required for a successful career in the pharmaceutical industry. This course aims to bridge the gap between academic learning and practical industry applications, providing participants with a comprehensive understanding of the pharmaceutical field.

## Objectives

- To enhance the expertise of MD Pharmacology professionals in pharmaceutical practices.
- To provide insights into the latest trends and developments in the pharmaceutical industry.
- To develop skills necessary for effective pharmaceutical research, drug development, and clinical trials.
- To prepare participants for leadership roles in the pharmaceutical sector.

## Target audience

- Postgraduate students pursuing MD in Pharmacology
- Faculties involved in teaching and training to postgraduate MD Pharmacology students
- MD Pharmacology doctors working in pharmaceutical industry. clinical research organizations (CRO).
- MD Pharmacology doctors working in drug development & regulatory process

## Course Structure

The course will be conducted online every Saturday in August 2024 from 4 PM to 6 PM, consisting of a 40-minute presentation followed by a 20-minute discussion. Each session will be led by eminent speakers from the pharmaceutical industry, CROs, drug development and regulatory process and academia with sufficient experience in pharmaceuticals; industry offering participants the opportunity to learn from experienced professionals and engage in meaningful discussions.

## Course modules covered

- 1) Overview of Pharma Industry and Outsourcing Opportunities: Global & Indian Perspectives.
- 2) Medical affairs: Global and Indian perspective & Clinical trial management.
- 3) Effective Medical Writing: Techniques and Best Practices for Pharmacologists.
- 4) BA /BE Studies and roles and responsibilities of MD Pharmacologists in BA/BE studies.
- 5) Collaborative Role of Drug Safety Physicians in Pharmacovigilance.
- 6) Translating academic Knowledge into Industry Practice.
- 7) AI and Machine Learning in Pharma Industry with glimpses of real world evidence.
- 8) Topic Personal Branding and Networking in Pharma Industry.
- 9) Career path in Pharmaceutical Industry for MD Pharmacologists.
- 10) Resume and Interview Preparation for Pharmaceutical Industry.

## Messages

Dear Colleagues and Participants,

It gives me immense pleasure to welcome you all to the 2025 edition of the Online Certificate Course in Pharmaceutical Physician, organized by the National Association of Pharmacology and Therapeutics.

As the pharmaceutical landscape continues to evolve at an accelerated pace—driven by scientific breakthroughs, regulatory changes, and the rise of personalized medicine—it becomes increasingly important for pharmacology professionals to stay ahead of the curve. This skill-enhancing course, thoughtfully designed for MD Pharmacology doctors and postgraduate students pursuing MD, aims to build on your primary degree and prepare you for advanced roles within the pharmaceutical sector.

Throughout the Saturdays evening 2nd August to 30th August 2025 you will have the opportunity to learn from distinguished speakers and from pharmaceutical industry and experienced leaders from academia. Their collective experience will provide valuable insights into real-world challenges and the evolving role of pharmaceutical physicians.

This course is more than just an academic offering—it is a platform to build industry-ready competencies in drug development, clinical research, medical affairs, and regulatory sciences. Our goal is to empower you to transition confidently from academia to impactful roles within the pharma industry.

Together, let us build a stronger, more informed pharmacology community that contributes meaningfully to innovation and patient care.

Long live NPT Jai Hind

Major Dr. Jeetendra Singh

**Organizing Chairman, CPP 2025**

Prof and head

Govt Medical college and Maharashtra Post Graduate institute of Medical Education and Research, MUHS, Nashik

Dear Colleagues and Friends,

Greetings from the National Association of Pharmacology and Therapeutics (NAPT)!

It gives me immense pleasure to invite you to the Certificate Course in Pharmaceutical Physician (CPP 2025) — a flagship academic initiative designed to empower MD Pharmacology professionals and postgraduate students with cutting-edge knowledge and practical exposure to the pharmaceutical industry.

This comprehensive course will be conducted online every Saturday throughout August 2025, from 4:00 PM to 6:00 PM, ensuring flexibility and accessibility for participants across the country. Each session will consist of a 40-minute expert presentation followed by a 20-minute interactive discussion, facilitating deep engagement and dynamic learning. The sessions will be delivered by renowned national and international experts, bringing with them vast experience in pharmaceutical R&D, clinical trials, drug safety, regulatory sciences, and medical affairs.

CPP 2025 has been thoughtfully curated to address the growing need for specialized training in the pharmaceutical domain. As the landscape of healthcare and drug development rapidly evolves, this course will serve as a vital platform to upgrade your competencies, expand your professional horizon, and prepare for strategic leadership roles in the pharmaceutical and clinical research sectors.

Whether you aspire to contribute to academia, industry, or regulatory bodies, this program is a significant step forward in your professional journey. Your participation will not only enrich your own career path but also help strengthen the broader pharmacology and therapeutics community.

We sincerely encourage you to take advantage of this unique learning opportunity and be an active part of

Dr. Reshma Quadros

## Registration fee details

CATEGORY	1st June to 30th June 2025	1st July to 15th July 2025
NPT student members Post graduates MD Pharmacology	2025	2525
Non members students Post graduates MD Pharmacology	2525	3025
Life member MD Pharmacology faculties/MD Pharmacology doctors	2025	2525
Non Life member MD Pharmacology faculties/MD Pharmacology doctors	2525	3025
Medical Professionals (MBBS/MD/MS/DNB/MCh/DM) in Pharma Industry/Regulatory bodies/CROs	5025	7025

### Note:

- Registration is open until 15th July 2025.
- The course dashboard will remain accessible until 31st July 2026.
- If you wish to avail the benefits of discounted registration fee under NPT membership, please ensure you receive your membership certificate and membership number.
- This process may take up to 7 working days. Concessional fee cannot be claimed immediately after applying for membership.

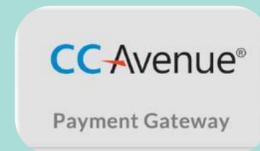

### Important Instructions

- This course is strictly for medical doctors holding MBBS/MD/DNB/DM degrees in Pharmacology, Clinical Pharmacology, or Therapeutics.
- MD Pharmacology postgraduate students who have been admitted through NEET PG are also eligible.
- Individuals with non-medical qualifications such as B.Pharm., M.Pharm., Pharm.D., M.Sc. (Pharmacology), or Ph.D. (Pharmacology) are not eligible to apply
- It is the responsibility of the applicant to ensure eligibility before applying. Fees once paid will not be refunded.

**Early bird registration till 30th June 2025**

**Last Date of registration 15th July 2025**

**POWERED BY**

## HOW TO REGISTER

- Visit the official website: [www.nationalpharmacology.org](http://www.nationalpharmacology.org)
- Click on "CPP 2025".
- Read all information provided in the brochure/website carefully.
- Select your appropriate registration category and fill out the form.
- Review the payable amount and click on "Pay".
- Complete the transaction through the secure online payment gateway.
- Only online payment is applicable. (Cash/draft/cheques etc. not accepted)
- Save an image of fund transaction receipt with payment reference number and date/time of payment for future reference.

## POST PAYMENT INSTRUCTIONS

- Post-Payment Instructions
- Save a screenshot or image of the transaction receipt.
- Note the payment reference number and time/date of transaction.
- A confirmation will appear on your screen and a confirmation email will be sent to your registered email address with login credentials.

NEW

## CPP 2025 DASHBOARD ACCESS AND FEATURES

- CPP Dashboard Access & Features
- Log in using the 'CPP Login' option on the website homepage.

### Features available on the dashboard include:

- Live Webinar Links
- Recorded Sessions
- Course Certificate (e-Certificate) after completion of course
- Online Assignments and submission
- Profile and Account Management
- Access to 'Pharmaceutical Physician 2025' WhatsApp Group
- Community Interaction Forum
- Help and Support
